

User Guide

Telescopic Ladder

User guide

Preliminary information

Please follow the instructions and check the stability of the equipment before use.

User guide

Thread the ladder fitting through the holes in the tent bracket and turn the anti-luce to the lock position

Anti-luce
unlocked position

Anti-luce
locked position

User Guide

Extending the ladder:

Slowly pull the ladder out making sure that each run clicks / locks into place

The ladder runs must be evenly spaced from the tent bracket to the feet, all locked in place

Ensure that the weight is borne by the feet of the ladder and not hanging off the tent bracket.

The ladder runs/steps must ideally be parallel with the ground.

User Guide

Extending the ladder:

Incorrect ladder run / step spacing

Ladder must not be overextended in length. Ladder steps must be parallel to the ground

User Guide

Collapsing the ladder for storage:

Unlock the Anti Luce and remove the ladder from the tent bracket.

Press the ladder quick release buttons from the lower steps to collapse the ladder.

Quick release button

NOTE: Ensure that the users' hands and fingers are on the side of the ladder when the runs are collapsing

FITMENT INSTRUCTIONS

Ladder Extension

Installation Instructions

NOTE: The telescopic ladder must be fully locked in its extended position for this bracket to work correctly. The ladder must be grounded, taking the weight of the user. The ladder must not have the weight **HANGING** on the bracket

Installation Instructions

1

Place the ladder extension against the ladder bracket

2

Be sure to place the extension to fit in between the bolts holding the bracket to the tent. Then slide the extension to the right so the pins move into the holes and move the antiluce to the lock position.

3

NOTE: Remove plastic nut-cap from the bracket attached to the ladder

4

Repeat the same actions as before to mount the ladder to the extension

NOTE: The telescopic ladder must be fully locked in its extended position for this bracket to work correctly. The ladder must be grounded, taking the weight of the user. The ladder must not have the weight **HANGING** on the bracket

Review all instructions information carefully before installation.

Any damages, direct or incidental to the installer and/or property due to incorrect installation of any parts are the responsibility of the installer. Due to the various applications and fitment options available, the responsibility lies with the user to ensure all mounting points are secure and tight before every trip.

If unsure, consult with your Distributor regarding the operations of our products.

Users are advised to be mindful of the load they are carrying and drive in accordance with road conditions.

WARNING

Always wear appropriate PPE (Personal protection equipment) when fitting our products. Although the mounting kit is designed to be DIY, if you have any doubts or concerns, contact an accredited fitment centre to carry out the work.
