Lighting Upgrade Experience

## CONVERSION KIT HALOGEN TO LED

### A DISCREET, SAFE AND STABLE INSTALLATION

Discreet, efficient and easy to install, this kit is the perfect accessory if you want to upgrade your lighting performance while keeping the original look of your JIMNY.

We take safety seriously, and none of our kits require drilling or cutting in parts that are critical for structural integrity.

No protruding or sharp objects in front of the car also means better safety for pedestrians and other unprotected occupants of the road. Fuel economy and wind noise will stay untouched.

INCREASE YOUR VISIBILITY

### CONVERSION KIT HALOGEN TO LED

The E-Mark Approved VX Series LED Headlight leads the LED Headlight industry in both style and performance. With an integrated LED Halo Ring, the VX Headlight is sure to turn heads while also delivering a dramatically improved night driving experience over factory headlights. The VX Series is currently available in 7" Round with a Polished Chrome finish, Black matte finish or a Black Chrome finish.

E-approved as driving light ECE R112.01.

BRACKET DESIGNED FOR JIMNY

#### Position Light

White color of position light for an outstanding light effect, perfectly positioned in a ring.

#### Wide Spread Low Beam

One main 12W LED produces the wide spread low beam with the help of 5W LEDs on the sides to fill in the roadway directly in front of your vehicle.

#### High Beam

Two 10W LEDs located under the low beam utilize Iris Reflectors to produce a long range high beam.

All prices are VAT excluded - Prices are subject to change without notice.

#### COMBO / DRIVING BEAM

Added peripheral illumination with the benefit of distance and spread. Similar to the broad spot beam, Vision X lights that produce a combo/mixed beam are equipped with multiple optics with varying degrees that angle light outward towards the side of your vehicle but still maintain distance and spread.
