45104B	109kg / 241lb	79kg / 174lb	319kg / 703lb		41kg / 90lb
41104	106kg / 234lb	76kg / 168lb	316kg / 697lb		44kg / 97lb
42107B	116.5kg / 257lb	86.5kg / 191lb	326.5kg / 720lb		33.5kg / 74lb
45107B	113.5kg / 250lb	83.5kg / 184lb	323.5kg / 713lb		36.5kg / 80lb
41107	111kg / 245lb	81kg / 179lb	321kg / 708lb		39kg / 86lb

#### Roof Allowance: Cargo Allowance: Static Allowance:

Total permissible weight attached to the roof of the car. This is inclusive of the weight of the roof rack system Total permissible weight allowed on top, and attached to roof racks whilst the vehicle is in motion

Total permissible weight allowed on top, and attached to roof racks whilst the vehicle is stationary Please refer to your vehicle manufacturers handbook for maximum carrying capacity. Always use the lower of the two figures. Load must be evenly distributed over the entire Pioneer. Weight of roof rack accessories is to be included in cargo allowance. Warning:

- Check Part No. and/ or Kit is correct for use with your vehicle
- Do not attempt to fit the rack system to your vehicle unless you fully understand these fitting instructions. Please direct any questions . regarding fitting to the dealer from where the roof racks were purchased.
- Use only non-stretch fastening ropes or straps. .
- . The handling characteristics of the vehicle changes when you transport a load on the roof. For safety reasons we recommend you exercise extreme care when transporting wind-resistant loads. Special consideration must be taken into account when cornering and braking.
- Although the system is tested and approved to AS1235-2000 / ISO 11154, off-road conditions can be much more rigorous. Extreme care must be taken in off road conditions

#### Recommendations:

It is essential that all bolt connections be checked after driving a short distance when you first install your roof racks. Bolt connections should be checked again at regular intervals (once a week is enough, depending on road conditions, usage, loads and distances travelled). You should also check the roof racks each time they are re-fitted. Always make sure to fasten your load securely. Please also ensure that all loads are evenly distributed and that the centre of gravity is kept as low as possible and must be entirely contained within the extents of the roof racks.

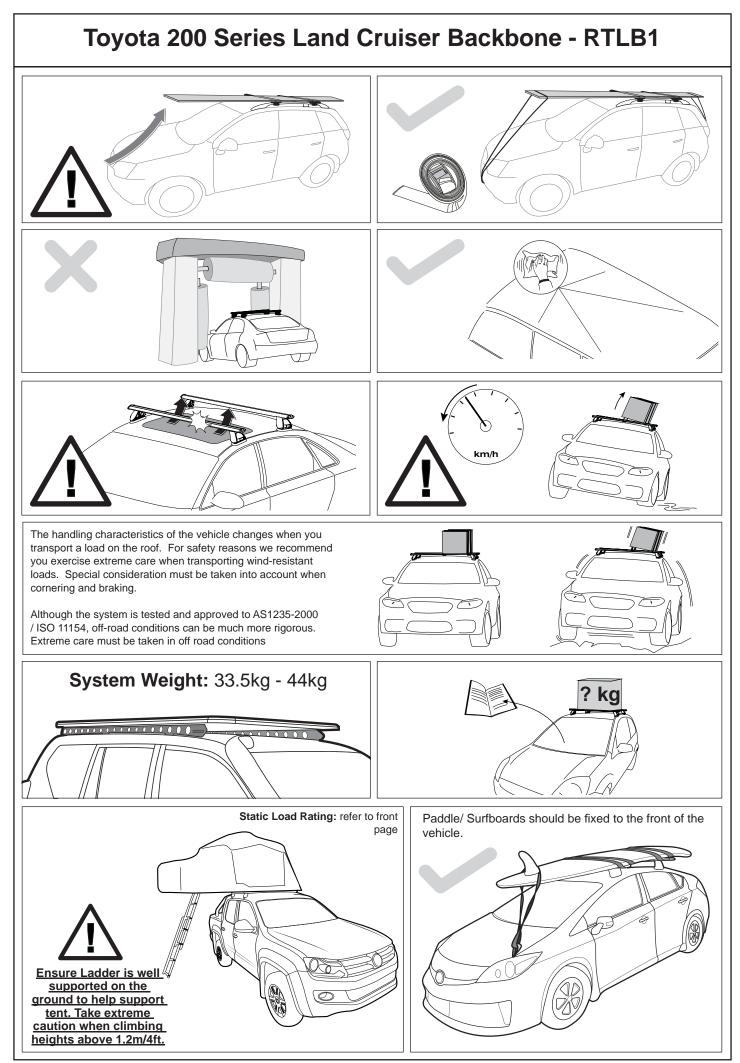

#### Note for Dealers and Fitters:

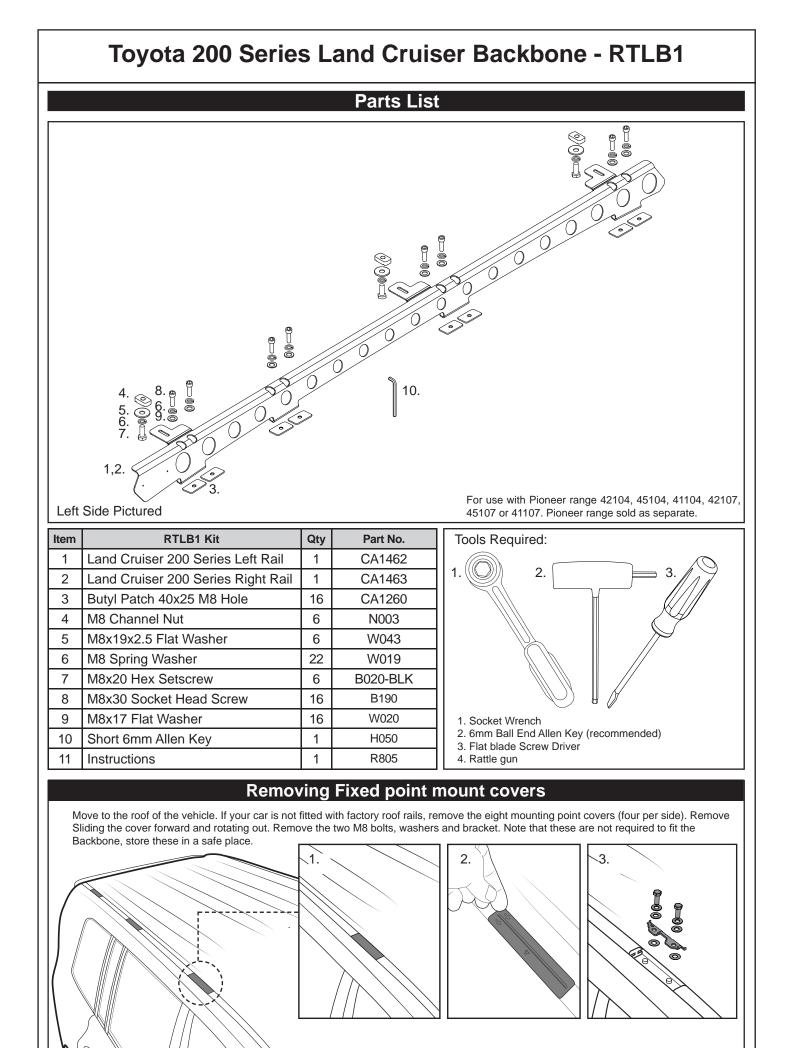

It is your responsibility to ensure these fitting instructions are given to the end user or client
